

BITSEND
YOUR DIGITAL NETWORK

Bitsend (BSD) is now available for exchange on <https://instaswap.io> . Simple, fast and secure exchanging of Bitsend to every other coin/token.

InstaSwap is a cryptocurrency exchange platform where everyone can exchange their coins between a variety of cryptocurrencies and tokens which does not require any personal information nor registration for a user. InstaSwap came to solve the difficulties between cryptocurrencies such as time consuming and complicated actions of a user. Their vision is to provide simple, fast and secure exchanges to anyone around the world. They are operating since 17/6/2018 officially after months of hard work to bring this project alive.

Just by depositing their currency in the provided wallets and they exchange their coins at the best market rates for you, in that way they protect their anonymity and secure their receiving currencies in the best rates.
